December 20, 2012

TO: RESIDENTS ON OR NEAR GREENVIEW DRIVE, PALMER DRIVE, POPLAR AVENUE, COLLINS BLVD, FORD STREET, PARK PLACE BLVD, MIDDLECOFF DRIVE, JONES STREET, AND RED OAK DRIVE

RE: SIDEWALK, RAMP, AND CURB AND GUTTER IMPROVEMENTS TO VARIOUS STREETS

Dear Resident:

In order to improve the sidewalks and accessibility in your area, the City of Gulfport requests your patience and cooperation throughout the duration of the upgrades to existing sidewalks, ramps, and curb and gutter in or near your subdivision. Construction in this area began on Wednesday, December 19, 2012, and is expected to be completed in three weeks weather permitting before paving of the street occurs.

This project has been designed to improve pedestrian circulation and accessibility in the area by repairing and adding sidewalk sections, repairing and adding curb ramps, and repairing damaged curb and gutter. This project is funded and administered by the City of Gulfport.

Please secure all pets and remind all children to stay clear of the construction area, material, and equipment. We would also ask that you please avoid parking in the vicinity of the project or the named streets. This will assist the contractor, Landmark Contracting, Inc., in completing the project as soon as possible.

If you have any questions about this project, please do not hesitate to contact the City of Gulfport Engineering Department @ (228) 868-5815.

Thank you for your cooperation as we continue our efforts to improve the City of Gulfport.

Sincerely,

Robert K. Riemann

Robert K. Riemann, P.E.
Director of Engineering
