Resources about COVID-19 from Healthcare Interactive

Dear Member,

As your company's wellness resource, we at Healthcare Interactive want to help you navigate through the COVID-19 situation that is affecting our entire nation. We have created online COVID-19 education modules available to you through your Member Portal and Healthspace mobile app, which contain informational videos. The first online education module is available now and provides you with information on how to protect yourself and test your preparedness.

To access these online education modules, visit your Member Portal at <https://hci.healthspace.net> or Healthspace mobile app and login using your username and password. For additional information on how to login to your member portal, see attached Quick Start Guide.
