Subject: RFP questions

Categories: Council Meeting

Hey Connie,

We have two important questions for you that will impact our proposal.

1. In order to accurately determine the auto liability insurance costs, we need to have the schedule of all vehicles and equipment ALSO include the mileage / run-hours and replacement value. Can you provide this?
2. To properly gauge the potential risk of penalties, we respectfully request a history of said penalties / fines against the current contractor in the past two years.

Thanks in advance,

Greg Bishop | 404.386.0053

Subject: RFP - Operations and Maintenance for Water, Sewer, Streets and Drainage Systems
Importance: High

Hi Connie,

Severn Trent Environmental Services would love the opportunity to provide a thorough and value-added proposal in response to the Subject RFP. However due to the expedited due date encompassing the Memorial Day Holiday, we will not be able to allocate sufficient resources to develop a satisfactory proposal. With this said, would the City consider a due date extension to June 30th?

Thank you,

Jill Achee
