

# Pass Road Traffic Signal System Improvements

Wednesday, August 12, 2015

## Pass Road Traffic Signal System Improvements- Design Update 8/12/2015

Kick off meeting with MDOT, City Officials, and Neel-Schaffer, May 1, 2015.  
Preliminary engineering work included review of existing traffic signal equipment, phasing, and timings at selected intersections.  
Plans, specifications, and a construction cost estimate were developed for the proposed system improvements.  
Plan in hand field review and office review conducted with MDOT and City Representatives, July 8, 2015.  
Received comments from the MDOT following field review.  
Plans, specifications, and estimate to be submitted to MDOT for final review, August 2015.
