PROJECT STATUS REPORT

May 16, 2018

WEST FRITZ CREEK SEWER PHASE 2

Consulting Engineer Contact Person(s): Bob Escher, Jason Overstreet

Design Phase

General Description of Work Completed To Date:

- Conceptual layout of the planned route for next phase of the interceptor project has been completed and submitted to the City for review and comment. Have not received any comments.
- Completed incorporating comments from the Developer and the Harrison County Utility Authority into the project drawings.
- Finalized alignment changes through the adjacent development in order to establish the construction boundaries.
- Re-established the baseline in preparation for surveying the proposed easement/construction limits
- Submitted the easement description for review for the Florence Gardens property
- Working on the easement description for the Whitetrack S/D property
- Surveying the extent of the proposed ROW for Florence Gardens area in preparation for the wetlands delineation.
- Florence Gardens easement plat has been provided to HCUA for easement acquisition.
- Draft plans have been submitted to HCUA for review and approval.
- Engineering contract amendment has been approved.
- Joint Application and Notification for the project has been submitted to DMR, USACE and MDEQ.
- White Track easement and legal descriptions have been submitted to the HCUA.
- Have requested an update from the USACE on the permit status, but have not received a response.
- Met with HCUA representative regarding additional needs prior to signing the MDEQ OPC WW Profile Sheet
- Have submitted the plans and specs to MDEQ for approval of the design.
- Design approval was provided on 1-19-18
- Have submitted the agent authorization to the USACE
- Received comments from the USACE requesting additional information and are preparing a response with the appropriate supporting documentation.
- Subconsultant is continuing to respond to USACE information requests regarding the permit application.
- Have submitted additional information on 3-23-18 to the USACE regarding the additional information that was requested.
- USACE has published the required public notice
- Awaiting response from USACE and DMR representatives.

Planned Near Term Work:

- After receipt of the USACE permit, obtain quotes for wetlands mitigation.
- Submit quotes to the Board for selection of a mitigation firm.
- Obtain mitigation credits and send proof of same to USACE

Issues/Concerns:

1. What restoration (seeding or solid sod) is required to the vegetated portion of the road ROW along Midland Cove, Preservation Drive, etc.?
2. What are the requirements for the utility contractor utilizing the Contractor's Entrance to Florence Gardens?
