RE: 2020, 2021, and 2022 CAPERs comment submittals

Attached are all of the comment forms, whether submitted prior to the deadline by paper form, email, or U.S. mail, for the 2020, 2021, and 2022 CAPERs reports. Our team's role was to accept these comments on behalf of the City as required by HUD guidelines. Our team made no attempt to number these submissions and did not acknowledge receipt by marking so on each of these submissions. Receipt was acknowledged on some but not all due to almost all of these documents being submitted approximately 15 minutes or so before the deadline of January 26, 2023 at 4 pm. Any document numbering that is present on the form was provided by the submitter and not the City. Per HUD guidelines, there is no requirement to acknowledge receipt and individually number each of these submissions by the City.

Additionally, per guidelines, there are no requirements to separately spread these comment submittals across the minutes as an individual routine agenda item. It is council's prerogative to do so if they so choose. These comment submittals will be included in each of the CAPERs reports submitted to HUD.

Please reach out if you have any questions. Thank you in advance for your consideration.

**CITY OF GULFPORT CDBG AND HOME ENTITLEMENT PROGRAM
SUMMARY OF WRITTEN COMMENTS SUBMITTED DURING THE JANUARY 2024
DEVELOPMENT PROCESS FOR THE CITY'S 2020, 2021 and 2022 CAPERs**

At the January 11, 2024 Public Hearing regarding development of the City of Gulfport's 2020, 2021 and 2022 Consolidated Annual Performance and Evaluation Reports (CAPERs), Grace Aaron, consultant, accepted four written comments that are included in the Citizen Participation Attachment to each of the three subject CAPERs. Two comments were submitted by email and one was mailed to the Community Development Office

On behalf of the City of Gulfport's Community Development Office, Todd Harman, Finance and Accounting Director, accepted 294 written comments delivered to the Hardy Building at approximately 3:50 p.m., on January 26, 2024.

Of the total 301 written comments received, 114 had not been previously submitted. Of those:

- 69 were CAPERs comments; and
- 46 were 2023 Action Plan comments (which will be included with other comments received regarding development of the 2023 Action plan for resubmittal).

Of the 69 CAPER comments not previously received by the City, input was almost equally divided among those who indicated the funds budgeted for the Quarters District Street Improvements Project should be split equally between Wards 1 and 3 (28 comments) and those who indicated they are opposed to the Quarters Project receiving all the funds and recommended a variety of other projects to be funded (33 comments).

Three of the comments did not address the Quarters Project but requested funding to support housing assistance and recreational and drainage improvements. Three others made project recommendations for use of the funds other than for the Quarters Project; one comment simply stated opposition to the Quarters Project; one comment expressed support for the Quarters Project.

The 186 remaining comments previously were submitted in 2022 in response to the City's request for input regarding:

- development of the Gulfport 2022-2026 Consolidated Plan;
- 2019-2021 CDBG substantial amendments; and
- use of a one-time allocation from the 2021 HOME American Rescue Plan Act.

Twelve 2022-2026 Consolidated Plan surveys also were submitted.

All 301 written comments were considered by the City and are included in the Citizen Participation Attachment to each of the City of Gulfport's 2020, 2021 and 2022 CAPERs submitted for approval to HUD via IDIS.

I'm in support of the CDBG 2023 funds to upgrade "The Quarters". This plan is more beneficial to all residents of Gulfport and future students of the Job Corp Center in this city. The Dept of Labor has/is pouring Millions of Dollars into this area in support of underserved young people throughout the country. This area needs improving and brought to a standard these students will feel safe and quality of life is improved.

Subject: My comments for Comprehensive Community Input for City of Gulfport CDBG and HOME Entitlement Programs

Caution! This message was sent from outside of the City of Gulfport email system. Be careful where you click.

I am writing to provide comprehensive input for the Consolidated Annual Performance and Evaluation Reports (CAPERs) for Program Years 2020, 2021, and 2022. As a concerned member of the community, I believe strategic allocation of funds can significantly address the housing and community development needs of Gulfport.

I propose directing funds towards a range of initiatives to comprehensively support our community's well-being:

1. ****Education Programs for At-Risk Youth:**** Allocate resources to educational programs that keep at-risk youth engaged, reducing the likelihood of involvement in criminal activities.
2. ****Affordable Housing Initiatives:**** Prioritize subsidizing affordable housing projects to ensure residents can afford suitable living spaces, fostering a stable and secure community.
3. ****Summer Enrichment Programs:**** Establish summer programs aimed at keeping kids off the streets, providing educational and recreational activities during the summer break.
4. ****Teen Work Programs:**** Introduce work programs for teens, offering opportunities to earn income and develop skills, ultimately contributing to a more prepared workforce.

5. ****Support for Small Businesses:**** Provide grants or loans to support local small businesses, fostering economic growth and job creation within the community.
6. ****AIDS Funding for Housing and Mental Health:**** Allocate funds to address housing and mental health needs specifically related to AIDS, aiming to turn away from discrimination and ensure inclusivity within our community.

Additionally, consider the following critical areas for funding:

7. ****Day Care Assistance:**** Support families by allocating funds for affordable day care, enabling parents to work without the burden of child care expenses.
8. ****Rental Assistance:**** Provide financial support for rental assistance to ensure housing stability for low-income families.
9. ****Small Home Repairs and Handicap Access:**** Address the need for safe and accessible homes by allocating funds for small repairs and improvements, particularly for households with handicapped individuals.
10. ****Transportation Vouchers:**** Issue vouchers for rides to work, including bus, cab, or Uber services, ensuring that transportation barriers do not hinder employment opportunities.
11. ****Affordable Housing with Strict Housing Standards:**** Develop affordable housing with stringent standards to guarantee safe and quality living conditions for residents.
12. ****Summer Meals for Kids:**** Implement programs that provide nutritious meals for children during the summer months, addressing food insecurity.

Highlighting these initiatives not only addresses the immediate needs of our community but also contributes to long-term benefits such as reduced crime rates and a thriving local economy.

I have submitted these comments in line with the City's Citizen Participation Plan, aiming to contribute to the positive development of Gulfport. Thank you for considering these comprehensive recommendations.

Sincerely,

Re: CONSOLIDATED ANNUAL PERFORMANCE AND EVALUATION REPORTS FOR THE
CDBG AND HOME ENTITLEMENT PROGRAM FUNDS FOR PY2020, PY2021, PY2022 and
PY2023

Greetings Mayor Billy Hewes, Gulfport Council Members & Community Development Staffers,

Please accept this letter as my *required written comment* on the above described matters as an amendment to my prior submission dated January 22, 2024 on this wise as well. More specifically, I propose the following:

I.

USAGE FOR HOME ENTITLEMENT PROGRAM DOLLARS

PROPOSED TRANSITIONAL HOUSING FOR AT-RISK YOUTH AGING OUT OF FOSTER CARE. As reflected on Mississippi's Child Protective Services online site at <https://www.mdcpss.ms.gov/programs/foster-care>, "Currently, in Mississippi, there are approximately 4,000 children in foster care. ... These children share the need for a caring and committed family that can bring them the future they deserve. ... Foster parents are individuals or married couples who complete steps to become licensed to serve as caretakers for foster children. ... Foster parents may choose to adopt the children if reunification with their families isn't possible." Sadly the dream of a *forever family* does not always become reality and many unfortunately ages out of the foster care system at 18-years-old with their futures being unsettled. This I can imagine be frightening for those *low-to-moderate qualifying persons* having no real place to go, job or the like.

It is, therefore, my recommendation that Gulfport partner with Mississippi's Child Protective Services with allocation of HOME Entitlement Program funds to coordinate the development of a transitional housing program for at-risk youth aging out of the foster care system. Further, I propose the City of Gulfport and Harrison County extend that partnership with non-profits, the private sector and even business entities to secure residences and/or properties to serve as a safe transitional living space for qualifying children who literally have nowhere to go *at no charge to them initially* but over time incorporate affordable rents to be based upon their earned income, which will prepare them independent lives upon leaving the facility as they will be responsible for at that point.

This, my proposal to utilize HOME Entitlement Program dollars for transitional housing units for at-risk youth that age out of foster care, is just a start! If permissible, I'd be to sit down with the appropriate stakeholders at some point to explore the viability of this plan further. You should know Mississippi's Child Protective Services provide youth transition support services and a similar program, the Oxford House, operates very well within the state of Mississippi and even local communities to aid formerly incarcerated PERSONS to prevent recidivism, could serve as an excellent model.

Also I propose *adding* Community Action of South Mississippi to the consortium of social service providers for distribution of HOME Entitlement Program funds as they have an established program that currently serves low-to-moderate income qualifying persons. Individuals moving off the streets and into permanent housing are required to pay rental deposits and utility deposits that combined can be as much as \$1,200. Utility Deposits and Rental Deposits are barriers, which often stand between housing and homelessness. For the record, Community Action Agency of South Mississippi has proven the one agency out of all of the members of your current consortium that actually provide Emergency Housing services for low-to-moderate income qualifying persons.

II.

PROPOSED USAGE OF CDBG HUD ACTION PLAN FUNDING

My review of the above referenced document reveal that Open Doors Homeless Corporation, Back Bay Mission, Mississippi Regional Housing VIII, Gulf Coast Women's Center for Domestic Violence, South Mississippi AIDS Task Force, Salvation Army are participating members of a consortium for the distribution of CDBG HUD dollars to provide emergency housing to homeless persons and other low-to-moderate qualifying persons. As a social service provider via Patricia Annie Battiste Ministry LLC and myself being a qualifying low-to-moderate person, I am compelled to communicate the services provided by these agencies DO NOT satisfy one's goal to become sheltered in any way. With most of the funding going to Open Doors Homeless Coalition, I compelled to say there is nothing about their operation methods that address *emergencies*. While the needs of the homeless and low-to-moderate persons needing help to avoid eviction is an actual emergency, Open Doors Homeless Corporation has at best a 90-day turn around time to meet the needs of the people they serve. In short, there is nothing about their manner of operation that addresses *emergencies* for the afore stated reasons. In addition, the Salvation Army and Back Bay Mission both do great jobs to provide *day services* to the homeless population within the Harrison County area providing showers, laundry services, mailing addresses, cold weather shelters, and computer access, they, too, do NOT have the means of assisting low-to-moderate income qualifying persons to get off the street and into permanent housing.

Again I propose *adding* Community Action of South Mississippi to the consortium of social service providers for distribution of CDBG HUD funds as they have an established program that currently serve low-to-moderate income qualifying persons with utility assistance with the LIHEAP Federal Grant and others to serve in this way.

2.

CONSOLIDATED ANNUAL PERFORMANCE AND EVALUATION REPORTS FOR CDBG AND HOME ENTITLEMENT PROGRAMS FOR PY2020, PY2021, PY2022 AND YES, PY20

My review of Gulfport's past performances in administering CDBG HUD funding and HOME Entitlements funds leaves much to be desired. For instance, Emergency Housing was planned by the City in Ward 1 for 50 persons to be serviced and mere 20 in Ward 3. However, the distribution for rental assistance, acquiring new units, rehabilitation of LMI housing amounted to \$0.00 being distributed with just 5-existing unit acquisitions. "In PY2020 the City of Gulfport was allocated CDBG funds of \$772,195 and \$486,692 in home funds" and the "generated PR-01 Activity Summary by selected grant report [showed] the city had net drawn CDBG amount of \$144,439 for administration and planning ... leaving \$577,756 available... However in the information in the PY-01 report [shows it] is NOT supported by the information in the PR-26 Summary of Expenditures Report [as the] PR-26 identifies 0.0 disbursed in PY2020 for planning/administration while \$58,513.11 was disbursed for [unidentified] public services."

"Compliance with annual budget expenditures by projects, compliance with annual expenditure caps for certain activities, cumulative expenditures that benefit low/moderate persons and obligations and disbursements by activity" is basic requirements for annual submissions by the City to the U.S. Department of Housing and Urban Development via its Integrated Disbursement and Information System (IDIS) Software. Gulfport, in my opinion, has failed in its obligations for more than four years. This is just unacceptable in that Gulfport has opted to address

blighted areas over addressing to the emergency housing needs of low-to-moderate qualifying persons as permitted by the U.S. Department of Housing and Urban Development.”

Contrary to Mayor Billy Hewes’s public comment in his recent WLOX interview, the PY2023 CDBG HUD Action Plan submitted by the City of Gulfport reveals the negligence of its staff and their inability to continue to oversee said funding was a **mere blank form**. It’s just shameful that Gulfport received 20% of the overall grant awarded to Gulfport by HUD for administering NOTHING!

Should Gulfport adopt and or incorporate my recommendations, low-to-moderate income qualifying persons and blighted areas can be serviced *simultaneously* rather than *the either or approach* that Gulfport has engaged in for decades to invest in streetscapes over low-to-moderate income qualifying persons, leaving them to be *underserved*. This is the ultimate goal.

Sincerely,

Re: CONSOLIDATED PUBLIC COMMENT REGARDING
2020, 2021, 2022 and 2023 CDBG HUD Action Plans

Dear Mayor Billy Hewes and the Members of Gulfport City Council,

Please be advised that I am writing today to communicate my ideas with regards to the above described Action Plans and HUD Entitlement Programs which are to be submitted to the U.S. Department of Housing and Urban Development by the City of Gulfport this month. I have carefully reviewed the documents relative to this process, which was *partially* made available to me by Gulfport's Council Clerk. In reviewing the same, I have observed the "City of Gulfport generally invests its CDBG and Home resources to principally benefit low-to-moderate persons rather than the other national CDBG objectives to address urgent needs and prevent or eliminate blight" according to the 2017 – 2021 Consolidated Plan to: (1) provide decent housing, (2) providing suitable living environments and (3) expand economic development for qualifying persons living in high concentrations of low-to-moderate, blighted areas in the City of Gulfport contrary to national HUD objectives that include: (a) principally benefitting low-to-moderate income persons, (b) prevent or eliminate slums or blight and (c) meet community needs having particular urgency. Specifically, I recommend the following for Ward 1 and Ward 3 as the same documents identified those areas as having highly concentrations of low-to-moderate persons residing therein. For the record, Wards 1 and 3 have been the most *underserved* low-to-moderate, blighted areas in Gulfport and I am hoping things will change by my participation in this instant process.

1.

CITIZEN PARTICIPATION FOR FOR PY2020, PY2021, PY2022 AND PY2023

CREATION OF NEW OR REHABING EXISTING HOUSING AS FOLLOWS:

- (1) Housing units for functionally disabled persons who desire to live independent lives in South Mississippi as single adults, which might include a 24-hour on duty skilled residential advisor. Said project might serve persons recently released from hospitals, rehab facilities and even mental health institutions.
- (2) Housing units for young people transitioning from the foster care program to assist them with living independent lives in qualifying communities.
- (3) Housing units to address the needs of homeless persons in the fair city of Gulfport, Mississippi providing support to them to help them acquire essential forms of identification, job training, hygiene and the like.
- (4) Housing units, such as the existing Oxford House, to assist formerly incarcerated persons who are transitioning to a liberated life in an effort to decrease recidivisms by those persons and help them overcome the propensity of returning to prison.

Should Gulfport adopt and or incorporate my recommendations, serviced low-to-moderate persons residing in blighted areas might include your targeted families with children, unaccompanied youth (foster), homeless individuals and families, mentally ill, the physically disabled and even displaced Veterans.

While Open Doors, Back Bay Mission, Mississippi Regional Housing VIII, Gulf Coast Women's Center for Domestic Violence, South Mississippi AIDS Task Force, Salvation Army do notable work to assist the homeless, it's important that these agencies start moving at a much swifter. Being formerly homeless myself, I know that homeless person needs are instant. The requirement for Open Doors Homeless Coalition to get back with homeless persons at their convenience – most often more than 30-days – is unacceptable. Since they get the bulk of Gulfport's CDBG funding, the city should require a much more, speedy processing.

2.

CONSOLIDATED ANNUAL PERFORMANCE AND EVALUATION REPORTS FOR CDBG AND HOME ENTITLEMENT PROGRAMS FOR PY2020, PY2021, PY2022 AND YES, PY2023

Finally, my review of Gulfport's past performances in administering CDBG HUD funding and HOME Entitlements funds leaves much to be desired. For instance, Emergency Housing was planned by the City in Ward 1 for 50 persons to be serviced and mere 20 in Ward 3. However, the distribution for rental assistance, acquiring new units, rehabilitation of LMI housing amounted to \$0.00 being distributed with just 5-existing unit acquisitions.

"In PY2020 the City of Gulfport was allocated CDBG funds of \$772,195 and \$486,692 in home funds" and the "generated PR-01 Activity Summary by selected grant report [showed] the city had net drawn CDBG amount of \$144,439 for administration and planning ... leaving \$577,756 available... However in the information in the PY-01 report [shows it] is NOT supported by the information in the PR-26 Summary of Expenditures Report [as the] PR-26

identifies 0.0 disbursed in PY2020 for planning/administration while \$58,513.11 was disbursed for [unidentified] public services.”

“Compliance with annual budget expenditures by projects, compliance with annual expenditure caps for certain activities, cumulative expenditures that benefit low/moderate persons and obligations and disbursements by activity” is basic requirements for annual submissions by the City to the U.S. Department of Housing and Urban Development via its Integrated Disbursement and Information System (IDIS) Software. Gulfport, in my opinion, has failed in its obligations for more than four years. This is just unacceptable.

Respectfully submitted, I am

Sincerely,

PATRICIA ANNE BATTISTE

P/S Community Action Agency of South Mississippi, located @ 500 24th Street in Gulfport does a wonderful job Administering the Federal LIHEAP Grant and other funds to assist w/ utility assistance, utility deposits, rental deposits, Veterans Homeless Assistance & more — they're professional, timely and get to clients w/ 30 days or less. Please Add this Agency to the City's Consortium of Service Providers for distribution of CDBG HUD distributions & Home Entitlement Program funds. They're already doing a better job than most of the Social Service providers you partner with. Trans Realtor

Ella Holmes-Hines 1/26/24 Citizens comments attached.

Please split equally the Community Development Block Grant (CDBG) funds between the two Majority Minority Wards 1 and 3. I am opposed to the discriminatory practice of how the City of Gulfport has held the Entitlement CDBG funds with so much need in Ward 3. Many citizens applied for funding and never received funding. I believe this is illegal.

I believe that holding Entitlement CDBG funds is a Discriminatory conspiracy against the rights of poor low/moderate citizens, who truly needed these funds to improve their quality of life. The City of Gulfport and the State of Mississippi HUD, Jackson, Mississippi should be held accountable for this discriminatory conspiracy plan.

The CDBG funds must be equally split between the two Majority Minority Wards 1 and 3 effective immediately. CDBG fund must begin assisting the Low/Moderate Citizens of Ward 3 as they are hurting and need assistance immediately. Ella Holmes-Hines 1-26-24

Re: HOME ENTITLEMENT PROGRAM FUNDS FOR & CDBG HUD ACTION PLAN
FUNDS FOR PY2020, PY2021, PY2022 and PY2023

Greetings,

Please accept this letter as my *written comment* on the above titled matters on behalf of the homeless population in the city of Gulfport that we, Inside Out Outreach, serve throughout the year as it pertains to the use of HOME Entitlement Programs and/or CDBG HUD funding. It's our understanding that HOME Entitlement Programs dollars awarded to the city of Gulfport is intended to address emergency homeless housing needs for low-to-moderate income qualifying persons. For the record, I am aware of NO such facility nor agency, which actually works *to transition low-to-moderate income qualifying persons from the cold, wet streets of Gulfport to permanent housing* to include Open Doors Homeless Corporation, Back Bay Mission, Mississippi Regional Housing VIII – RAD Housing, Gulf Coast Women's Center for Domestic Violence, South Mississippi AIDS Task Force, Salvation Army as their program stands today has very poor turnaround time to assist, address *emergency housing needs* by the low-to-moderate income qualifying persons who make contact with their agencies for *emergency* assistance. At best, said low-to-moderate income qualifying persons at best can expect a minimum of 90-days with time, if that, in order to receive assistance from any of the above named organizations.

With the bulk of current distributions going to Open Doors Homeless Coalition, I have to wonder why it is that Open Doors was unable, unwilling to assist our client, Louann Marie Smith with emergency housing and services needs considering she being diagnosed with Stage 3 Lung Cancer and living in the woods is to start chemo therapy in coming days. You should know – and I have in my possession – digital recordings and files that disclose my communications with Open Doors Homeless Coalition regarding this matter. At one point, the staffer at Open Doors advised, "We are not an entitlement organization." The Open Doors representative also communicated, "We have all sorts special cases" when I informed them *over the phone* that Louanne is a *special case* because, again, she is a cancer patient living in the woods who is to undergo chemo therapy soon. "If you can not help Louann Smith," I asked, "who can you help?"

In another case, we are currently assisting a single parent who as a matter of transparency had a history of substance abuse. Although she is no longer in active addiction, she and her 8-year-old daughter currently resides in their vehicle at an undisclosed location in the fair city of Gulfport. Inside Out Outreach took on this case of a *homeless family with children* in an effort to secure affordable, permanent housing. Mom is bound to a wheelchair and has no income. This situation, as you know, perfectly qualifies for HOME Entitlement Programs funding as they are in desperate need for *emergency housing and services* to get off the street and into some form of permanent housing. The daughter for your information is in school, and despite her living conditions, carries good grades. Therefore, our proposal is this:

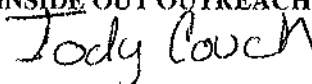

I.

USAGE FOR HOME ENTITLEMENT PROGRAM DOLLARS

Please accept this as our, Inside Out Outreach, request to join your board of social service consortium members. For your information, we are a federally recognized 501(c)(3) non-profit organization. Inside Out Outreach, File Number 10000 35612, is certified with the State of Mississippi as a Mississippi Charitable Organization pursuant to the Mississippi Charitable Solicitations Act. Finally, you should know that Inside Out Outreach currently holds a privilege license with the City of Gulfport as a non-profit, charity. Therefore, we are legally recognized and qualified to administer HOME Entitlement Programs funds and/or the CDBG HUD dollars to address the emergency housing needs of low-to-moderate income qualifying persons that we currently serve.

For your information, we hope to secure residences in the near future to provide real emergency housing and housing services to our clients that are low-to-moderate income persons as prescribed by the national guidelines of the U.S. Department of Housing and Urban Development. By copy of this letter, I respectfully request an application to apply to join your consortium of social service agencies to receive the funding at hand on behalf of our clients, which is our ultimate goal.

Sincerely,

INSIDE OUT OUTREACH

JODY COUCH, CEO

Comments Due to house sinking and ground
~~floor~~ Floor joists and leveling of house
needed. We are at that age of disability
Senior citizens, I am on the heart transplant
list and other elements and my wife is
also retired & disable. Now comes to the
point where we need assistance from

I support the majority minority low to moderate Ward 1 and 3 dividing the CDBG funding equally. ~~In order to qualify for this grant, you do not have to be a part of any organization.~~ The City of Gulfport has been using the black communities to qualify for CDBG grant monies for as long as I can remember. ~~Just to name a few of the individuals involved,~~ they were current Mayor Billy ~~Hewes~~, and CAO John Kelly. ~~Though the names above were mentioned, there were many more people who were involved that I did not list.~~ Here you have several council members who continually voted/supported the wrongdoing going on in the City of Gulfport. ~~All you have to do is follow the paper trail.~~ From my knowledge of working with the city, I know all these things are illegal. They use low to moderate income families to acquire funding and this is so sad. We need HUD and the Justice Department to investigate what these council persons have been doing for years. Under the leadership of Mayor Billy ~~Hewes~~ the City of Gulfport continues to move in a manner that does not benefit or represent our communities. I will not back down on any of this. I do not support anything the City of Gulfport and their criminal participants are engaging in. ~~Though many are scared to speak up on the city's wrongdoing, everyone knows.~~ Our Mayor Billy ~~Hewes~~ of Gulfport Mississippi was named the worst mayor in the United States by WalletHub.. I am asking HUD to come and investigate the paperwork the City of Gulfport is giving to its constituents. Of all the meetings that the City of Gulfport has held, not once has a Court Stenographer been present. ~~One of the requirements of our meetings is that it be recorded and not one meeting has been recorded.~~ In closing, I am opposed to the Quarters Project. ~~I support the task force youth programs, the support to moderate/low income families, assisting citizens with mental health issues, and most importantly I support people with disabilities a category that I fall in.~~

Comments I oppose giving all CDBG funds to District 1. The funds were generated using both district and should be divided evenly between District 1 and 3. I know in District 3 there are major needs such as roads paving in because of burst pipes and flooding because of clogged ditches. There is a need for programs for seniors and young people and a place to have them. We need housing repairs, anti-crime programs and jobs. I feel that the Quarter's Project is for beautification whereas the needs in Ward 3 are for the people.

Comments I support the majority minority low/moderate Ward 1 and Ward 3 in dividing CDBG funding equally. The people on Ward 1 and 3 have been mislead and not informed about grants for years. We need to help the community to upgrade and repair our community. We need plans and options to help the community to develop and better our wards. Instead of demolishing and selling by taxes and property sales. We need knowledge and information to obtain grants for the betterment and safety for Ward 3 and 1 for future developments.

Comments 1. I support Wards 1 and 3 equally dividing the above-mentioned CDBG and HOME Funding, since these Wards are fiscally deprived by the leadership in the City of Gulfport. The low-to-moderate income neighborhoods are in the forefront when "the city" is asking for funding from the Federal Government, however, when the city receives the funding, the low-to-moderate income citizens are an afterthought, when the money is dispersed. My experience with "the city" has been a very disheartening one. The funds are usually not used as "the city" portrays. The funding is somehow diverted to some unknown project or cause. When the citizens challenge "the city" on the whereabouts of the funding, this is when you witness the ultimate damage control. The City of Gulfport's historical attitude concerning this issue is well documented.

2. I support funding home improvement programs for low-to-moderate income citizens. During my tenure as resident Gulfport, I have seen our city leaders squander untold amounts of money received from the Federal Government. So, let's hold our leaders accountable, use the funding for which it was intended. OUR CITIZENS!!!! This is the best way to exhibit transparency, which we currently don't have.

In closing, the City of Gulfport leaders appear to promote fiscal disenfranchisement of the low-to-moderate income citizens. This attitude is not only toxic for ALL of our citizens, but be illegal in some cases. Just remember, all those inappropriately involved, WILL BE HELD ACCOUNTABLE

Lenn T. Wyche, Citizen of The City of Gulfport

Comments I oppose the Quarter Project. However I am in support of equally dividing the CDBG funding with Ward 1 and Ward 3, Majority Minority Low/Moderate communities. The city proposed drainage, Water, lights and sewer improvement which may include ADA Compliance for parks. However, these suggested improvements do not address home repairs and business. Therefore, if these are not addressed then the city miss the core value of communities and the foundation of healthy families in these areas of Ward 1 and Ward 3. I support youth programs, AID Task Force, Rehabilitation of mental health and drug abuse and funding for citizens with disabilities

Comments I do not agree with the consolidation plan to give one ward the funds for 2020, 2021 & 2022 for the Quarters District street improvement project. The funds should be equally divided between the wards/communities that are low-moderate income and have urgent needs, which also I also do not believe the city of Gulfport is in compliance when handling these funds and further investigation is needed. The city is also not in compliance when announcing the public hearings as well. They also have these meetings with inappropriate recording of the meetings. They are just checking off boxes to get the funding & do not have the public (low-moderate income communities) best interest at heart.

COMMENTS (A) We are opposed to changing the 5-year consolidated CDBG Plan for one (1) community; the "Quarters Project". Please address the following programs: Senior and Youth, Infrastructure Housing Repairs, Job Creations, and Anti-Crime. (B) We are opposed to taking ALL the 2019-2021 funding for economic development; the "Quarters Project". We support the CDBG funding to be split between both majority-minority and low-to-moderate income Wards (Ward One (1) and Ward Three (3)). (C) Home ARPA 2021 should go to assisting women and children; domestic violence; rental assistance; homeless prevention; housing counseling; and tenant-based rental assistance programs.

COMMENTS (A) We are opposed to changing the 5-year consolidated CDBG Plan for one (1) community; the "Quarters Project". Please address the following programs: Senior and Youth, Infrastructure Housing Repairs, Job Creations, and Anti-Crime. (B) We are opposed to taking ALL the 2019-2021 funding for economic development; the "Quarters Project". We support the CDBG funding to be split between both majority-minority and low-to-moderate income Wards (Ward One (1) and Ward Three (3)). (C) Home ARPA 2021 should go to assisting women and children; domestic violence; rental assistance; homeless prevention; housing counseling; and tenant-based rental assistance programs.

Consolidated Plan Survey

The City of Gulfport is in the process of developing a new Consolidated Plan for the use of Community Development Block Grant (CDBG) and HOME Investment Partnership Funds (HOME). The Plan will cover the 2022-2026 period and will identify the City's priorities for allocating these federal grant funds. We would like you to provide your perception of critical needs in the community. In addition, we would like to gain an understanding of Gulfport's agencies and the supportive role they plan in the community.

In order to customize the survey, please check next to the category that best represents you:

HOUSING/SERVICE NEEDS AND PRIORTIES

Please share your thoughts below to help identify the biggest priorities and gaps in Gulfport/Harrison County's housing and services landscape. This will help inform the process by which HOME-ARP funds are allocated to address those needs and priorities.

What unmet housing and service needs do you see among "Qualifying Populations" (people experiencing homelessness, at risk of homelessness, fleeing domestic violence, or otherwise at high risk of housing instability in Gulfport/UnIncorporated Harrison County).

Your answer

The number of organizations providing mental health & substance abuse services has severely dwindled in recent years. For the organizations continuing to provide these services, amount of federal funding received does not allow these organizations to meet the overwhelming demand currently experienced.

What gaps do you see within the current shelter and housing inventory, as well as the service delivery system in Gulfport/UnIncorporated Harrison County?

Your answer

There is a lack of available shelters within the city & county, and due to recent inflation, housing is becoming less & less affordable for those with limited income &/or multi-person families.

How would you rank the following eligible uses of HOME-ARP funds in terms of priority within our community?

	Development of Affordable Housing	Rental Assistance	Services (e.g., case management, legal services, moving costs assistance, etc.)	Acquisition/Development of Non-Congregate Shelter Units (i.e., emergency shelter provided in individual rooms rather than a traditional homeless shelter)
(1) Highest Priority	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(2) Mid/High Priority	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(3) Mid/Low Priority	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(4) Lowest Priority	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Please explain your prioritization in the question above.

Your answer
 If we do not address the foundational needs of individuals (legal, mental health, substance abuse issues), providing short-term rental assistance is only a temporary solution. This combined with the development of more affordable housing are the top priorities from my perspective, but the need for additional shelter units are crucial for the street homeless.

For development of affordable housing what specific needs do you see in our community? How do you think HOME-ARP funds could be used to address those needs?

Your answer

For Rental Assistance, what specific needs do you see in our community? How do you think HOME-ARP funds could be used to address those needs?

Your answer

For Services, what specific needs do you see in our community? How do you think HOME-ARP funds could be used to address those needs?

Your answer

Additional funding can be provided to local organizations providing mental health & substance abuse services specifically earmarked for the homeless.

For Non-Congregate Shelter (i.e., individual rooms rather than traditional homeless shelter), what specific needs do you see in our community? How do you think HOME-ARP funds could be used to address those needs?

Your answer

Is there anything else you would like to add?
