April 23, 2020

To Our Waste Pro Communities,

We want each of you to know that we appreciate your understanding and assistance during these tough times that we are all operating in with the COVID-19 pandemic. In an effort to ensure the safety of our employees and communities we have been successfully proactive in our procedures in an attempt to slow the spread of the virus. Following the Governor's lead in the relaxation of some of the restrictions during the current Shelter-In-Place order, we will be rescinding our 'No Touch' policy effective Monday, April 27 2020. We will resume picking up qualifying garbage/trash placed on the outside of garbage carts again.

Please continue to be careful and remain vigilant in this fight against the spread of COVID-19.

Your Waste Pro Team
