Copy all pages of this Elevation Certificate and all attachments for (1) community official, (2) insurance agent/company, and (3) building owner.

Comments (including type of equipment and location, per C2(e), if applicable)
 Confirm B8, B9, and C2a with local code office before any construction begins. The City of Gulfport requires an additional freeboard 12" above the BFE; therefore, the minimum base flood elevation is 15' + 12" = 16'. The Property Described listed on this certificate is for information purposes only. It is not intended to insure that the building is located on a particular legal parcel. The specific reference is according to municipal address only. Information in A9 refers to the accessory building itself. Accessory building measures (10.25' x 20.25'). All vents measure (16" x 8"). Elevation listed in C2a is an elevation for Portable Garage-MS-V=150MPH-IBC 2012 by Graceland Portable Buildings, LLC raised on concrete blocks. Benchmark is a mag nail set in the centerline of an asphalt driveway located near the southwest corner of the existing house. Elevation of mag nail = 6.60'
